

ANNUAL INDEX 1962

A limited number of tearsheets are available for most articles. For your free copies write to WESTERN MANUFACTURING, 609 Mission St., San Francisco, Calif., and indicate month and page number as listed below.

BUILDING & EXPANSION

Conference predicts business outlook for West.....	Feb. 25
Conference reports what slows California's growth.....	Dec.
Deluge system eliminates walls, yet satisfies safety rules	Oct. 32
New plants and expansions	Mar. 21
Plant engineering and maintenance report	June 27
Special manuals on buildings and materials	Mar. 60
Structure erected as production continues below.....	Nov. 34

COMMUNICATIONS

Audio visual method gives faster, better production.....	Jan. 23
Teletype speeds handling process.....	July 29

DESIGN

Clever design makes layout fixture a valuable tool.....	Oct. 26
Epoxy tooling for press molding.....	Oct. 41
Fast clamp speeds molding operation.....	Oct. 34
Gearless design for power transmission.....	Feb. 28
Material substitution improves product design, lowers production cost	Sept. 44
Metal finishing line designed for flexibility.....	Apr. 50
Positioning table reduces tooling costs.....	Nov. 37
Tubular rivets for effective product design and assembly	July 35
Unusual stamping techniques aid Western electronic plant	Dec.

MAINTENANCE

Blast cleaner automatically maintains tire molds.....	Nov. 41
Chemical weed control increases maintenance efficiency	Jan. 30
Deluge system eliminates walls, yet satisfies safety rules	Oct. 32
Electrical maintenance highlighted at show.....	May 40
Fume incinerator has applications in Western smog control	Dec.
Industrial water for the West.....	Mar. 45
Maintenance work speeded by anti-sieze compound.....	Apr. 52
Material substitution improves product design, lowers production cost.....	Sept. 25
New plants and expansions.....	Mar. 21
Plant engineering and maintenance report.....	June 27
Power and power transmission report.....	Sept. 25
Process change improves quality, cuts costs.....	June 50
Rust removal from production dies.....	July 34
Safety congress attracts 5,000 Westerners.....	June 47
Special benches provide localized clean areas.....	Feb. 21
Special manuals on abrasives.....	Feb. 46
Special manuals on buildings and materials.....	Mar. 60
Special manuals on cleaning equipment.....	June 68
Special manuals on pumps and compressors.....	Dec.
Special manuals on valves and fittings.....	Aug. 46
Special manuals on welding equipment.....	Nov. 59
Special manuals on wire rope, slings, chain.....	Jan. 46
Special steel increases part life.....	Dec.
Structure erected as production continues below.....	Nov. 34

MANAGEMENT

Conference predicts business outlook for West.....	Feb. 25
Conference reports what slows California's growth.....	Dec.
Cost-cutting ideas from group seminars.....	Oct. 24
Golden gate metals conference.....	Mar. 38
Learning curve for labor budget control.....	Aug. 30
1962 Tool Show highlights.....	Nov. 44
Security at a Western atomic plant.....	May 28
Training program improves quality control.....	Oct. 37
Western tool exposition and engineering conference.....	Sept. 52

MATERIAL HANDLING

Aluminum boxes assembled by adhesives.....	May 25
Annealing furnace reduces processing time.....	May 43
Audio visual method gives faster, better production.....	Jan. 23
Automatic wiring in an electronic plant.....	Feb. 17
Clamping eliminates special fixtures.....	Aug. 36
Clever design makes layout fixture a valuable tool.....	Oct. 26
Combination oven saves space in Western plant.....	Dec.
Conveyor system smooths assembly operation.....	Jan. 17
Conveyors and dockboards.....	Apr. 38
Conveyors can store while they handle.....	Oct. 21
Cranes hoists lifts.....	Apr. 37
Fast clamps speeds molding operation.....	Oct. 34
Flexible racks for in-plant storage.....	Sept. 46
Handling system developed for long flexible extrusions	Sept. 44
Industrial trucks and accessories.....	Apr. 32
King size pallets solve shipping problems.....	Mar. 35
Large new furnace cuts metal purification costs.....	Jan. 20
Material handling and packaging show.....	June 44
Metal finishing line designed for flexibility.....	Apr. 50
New plants and expansions.....	Mar. 21
1962 material handling and packaging show report.....	Apr. 28
Packaging for the government.....	June 41
Pans boxes pallets.....	Apr. 34
Plant engineering and maintenance report.....	June 27
Portable conveyor for intermittent use.....	May 42
Portable torch for electronic assembly.....	Jan. 28
Power stapler cuts mailing costs.....	Nov. 46
Pre-coated metal for Western plants.....	Nov. 29
Racks bins shelving.....	Apr. 40
Skin packaging for electronic parts.....	Aug. 24
Special benches provide localized clean areas.....	Feb. 21
Special manuals on industrial trucks.....	Apr. 66
Special manuals on wire rope, slings, chain.....	Jan. 46
Structure erected as production continues below.....	Nov. 34
Teletype speeds handling process.....	July 29
Tumbling for precision metal finishing.....	Jan. 33
Welding process solves assembly problem.....	Mar. 39
Western packaging report.....	July 17
Western trends in material handling.....	Apr. 30

METALS

Abrasives cutting of space age metals.....	Apr. 53
Aluminum boxes assembled by adhesives.....	May 25
Annealing furnace reduces processing time.....	May 43
Clamping eliminates special fixtures.....	Aug. 36
Clever design makes layout fixture a valuable tool.....	Oct. 26

Closer tolerances cut machining time.....	July 39
Freezing table for machining honeycomb.....	May 32
Golden gate metals conference.....	Mar. 38
Investment casting provides versatility.....	Aug. 21
Large new furnace cuts metal purification costs.....	Jan. 20
Low cost tooling for short run stamping.....	Apr. 47
Metal finishing line designed for flexibility.....	Apr. 50
New welding system increases production, reduces cost	Sept. 41
1962 Tool Show highlights.....	Nov. 44
Positioning table design reduces tooling costs.....	Nov. 37
Precoated metal for Western plants.....	Nov. 29
Special manuals on production materials.....	May 55
Special manuals on welding equipment.....	Nov. 59
Special steel increases part life.....	Dec.
Structure erected as production continues below.....	Nov. 34
Surface preparation key to proper metal bonding.....	Mar. 44
Training program improves quality control.....	Oct. 37
Tubular rivets for effective product design and assembly	July 35
Tumbling for precision metal finishing.....	Jan. 33
Two for one welding operation.....	Nov. 48
Unusual stamping techniques aid Western electronic plant	Dec.
Weld cracks located using three cushion billiard idea.....	July 32
Welding process solves assembly problem.....	Mar. 39
Western tool exposition and engineering conference.....	Sept. 52

NEWS FEATURES

WESCON Sets New Attendance Record in Los Angeles	Sept. 103
Western States Industrial Distributors Conven.....	Mar. 76
What Western manufacturers think about the recent cut in steel prices.....	Nov. 70

PACKAGING

King size pallets solve shipping problems	Mar. 35
Material handling and packaging show	June 44
1962 Material Handling & Packaging Show	Apr. 28
Packaging equipment	Apr. 43
Packaging for the government	June 41
Packaging Materials	Apr. 42
Portable conveyor for intermittent use	May 42
Power stapler cuts mailing costs	Nov. 46
Skin packaging for electronic parts	Aug. 24
Special manuals on packaging equipment	July 47
Teletype speeds handling process	July 29
Western packaging report	July 17

POWER & POWER TRANSMISSION

Annealing furnace reduces processing time	May 43
Automatic wiring in an electronic plant	Feb. 17
Combustion oven saves space in Western plant	Dec.
Conveyors can store while they handle	Oct. 21
Electrical maintenance highlighted at show	May 40
Electrical power, a guide to production efficiency	Feb. 33
Fume incinerator has applications in Western smog control	Dec.
Gearless design for power transmission	Feb. 28
Industrial water for the West	Mar. 45
Large new furnace cuts metal purification costs	Jan. 20
Metal finishing line designed for flexibility	Apr. 50
New plants and expansions	Mar. 21
New welding system increases production, reduces cost	Sept. 41
Plant engineering and maintenance report	June 27
Power and power transmission report	Sept. 25
Power stapler cuts mailing costs	Nov. 46
Precoated metal for Western plants	Nov. 29
Process change improves quality cuts costs	June 50
Special manuals on drives, clutches, reducers	Sept. 62
Special manuals on pumps and compressors	Dec.
Special manuals on valves and fittings	Aug. 46

Welding process solves assembly problem	Mar. 39
---	---------

PRODUCTION

Abrasive cutting of space age metals	Apr. 53
Aluminum boxes assembled by adhesives	May 25
Annealing furnace reduces processing time	May 43
Audio visual method gives faster, better production	Jan. 23
Automatic wiring in an electronic plant	Feb. 17
Clamping eliminates special fixtures	Aug. 36
Clever design makes layout fixture a valuable tool	Oct. 26
Closer tolerances cut machining time	July 39
Combination oven saves space in Western plant	Dec.
Conveyor system smooths assembly operation	Jan. 17
Cost cutting ideas from group seminars	Oct. 24
Cost savings through methods engineering	Apr. 56
Electrical power, a guide to production efficiency	Feb. 33
Epoxy tooling for press molding	Oct. 41
Fast clamp speeds molding operation	Oct. 34
Freezing table for machining honeycomb	May 32
Handling system developed for long flexible extrusions	Sept. 44
Investment casting provides versatility	Aug. 21
Large new furnace cuts metal projection costs	Jan. 20
Learning curve for labor budget control	Aug. 30
Low cost tooling for short run stamping	Apr. 47
Material substitution improves product design, lowers production cost	Sept. 49
New welding system increases production reduces cost.....	Sept. 41
Portable torch for electronic assembly	Jan. 28
Power stapler cuts mailing costs	Nov. 46
Precoated metal for Western plants	Nov. 29
Process change improves quality, cuts costs	June 50
Rust removal from production dies	July 34
Special benches provide localized clean areas	Feb. 21
Special manuals on abrasives	Feb. 46
Special manuals on fasteners	Oct. 56
Special manuals on production materials	May 55
Special manuals on welding equipment	Nov. 59
Surface preparation key to proper metal bonding	Mar. 44
Tubular rivets for effective product design and assembly	July 35
Two for one welding operation	Nov. 48
Welding process solves assembly problem	Mar. 39

QUALITY CONTROL

Blast cleaner automatically cleans tire molds	Nov. 41
Process change improves quality, cuts costs	June 50
Reliability program for complex products	Aug. 26
Special benches provide localized clean areas	Feb. 21
Special steel increases part life	Dec.
Training program improves quality control	Oct. 37
Tumbling for precision metal finishing	Jan. 33
Weld cracks located using three-cushion billiard idea	July 32

SAFETY

Safety congress attracts 5000 Westerners	June 47
Security at a Western atomic plant	May 28

SPECIAL MANUALS

Special manuals on abrasives	Feb. 46
Special manuals on buildings & materials	Mar. 60
Special manuals on cleaning equipment	June 68
Special manuals on drives, clutches, reducers	Sept. 62
Special manuals on fasteners	Oct. 56
Special manuals on industrial trucks	Apr. 66
Special manuals on packaging equipment	July 47
Special manuals on production materials	May 55
Special manuals on pumps and compressors	Dec.
Special manuals on valves & fittings	Aug. 46
Special manuals on welding equipment	Nov. 59
Special manuals on wire rope, slings, chain	Jan. 46

The articles in this index have been listed under subject headings. For your convenience, where articles pertain to more than one subject, find them listed appropriately.
